

# Kaiser Permanente's 2025 Environmental Stewardship Goals:

## Raising the Bar on Environmental Responsibility

At Kaiser Permanente, we recognize that healthy communities and a healthy environment are critical to the health and wellness of every person. Creating these has always been central to our mission.

Kaiser Permanente's Environmental Stewardship program is anchored in our community benefit work and embedded throughout our organization. Our environmental stewardship efforts help us advance our mission and our vision for total health – our approach that emphasizes the social, environmental, behavioral and clinical aspects that shape one's well being.

Each of Kaiser Permanente's 2025 goals offers an opportunity to raise the bar on environmental responsibility, not just for Kaiser Permanente but for the broader social and economic sectors in the U.S. and globally. We hope they inspire us all to create a future where total health is at the core of all that we do.

### CLIMATE ACTION

Become "carbon net positive" by buying enough clean energy and carbon offsets to remove more greenhouse gases from the atmosphere than we emit.

### SUSTAINABLE FOOD

Buy all of our food locally or from farms and producers that use sustainable practices, including using antibiotics responsibly.

### WASTE REDUCTION

Recycle, reuse or compost 100% of our non-hazardous waste.

### WATER CONSERVATION

Reduce the amount of water we use by 25% per square foot of buildings.

### SAFER PRODUCTS

Increase our purchase of products and materials meeting environmental standards to 50%.

### MANAGEMENT & ACCOUNTABILITY

Meet international standards for environmental management at all of our hospitals.

### COLLABORATION

Pursue new collaborations to reduce environmental risks to foodsheds, watersheds and air basins supplying our communities.
